**Subject:** Comment on Land Use Panel v. Mark and Julie Pernokas

As a property owner in Westmore whose property faces the Pernokas's I am upset and offended by their blatant disregard for working within the requirements of the state and respect for the surrounding environment. It could not have been a mistake as they have been offenders in the past. Now that this damage has been done I hope they can be fined accordingly and/or be forced to replace any removed trees and earth from the hillside or else they once again will have gotten away with getting what they want and will most likely continue such practices. Thank you for your time. Mary Kaye Maxwell
